**The Perfect Late Berry
Without A Fault!**

**This Big Red Delicious Berry
is Going to be Worth Millions
of Dollars to The Strawberry
World.**

IS the way one of our large customers put it after he had seen it in fruiting. No one who is interested in strawberries and who desires a beautiful late berry can afford to pass this money-maker by.

A Money - Maker For All!

For a long distant shipper it has no equal. The appearance and flavor is such as to merit the highest prices when sold on the market. The Town-King will mean as much or more to the strawberry growers of the country as the Delicious apple meant to the apple growers.

CLEAN HEALTHY FOLIAGE

And does well on any soil. Makes just enough plants for a fruiting row without restriction. Fruit held well off the ground and ripens all over at one time.

We reserve the right of sales on Town-King. This is to protect our customers, also ourselves.

The New Everbearing MASTADON

Grow The Best - It Costs No More!
Your Profits Will Double!

Our prices may be a little higher than some are offering this grand new variety for, but you certainly cannot afford to take a chance on so valuable variety as Mastadon.

Our Stock Is Direct From The Originators

We were two years in getting a dependable strain of this wonderful everbearing strawberry. Our stock now comes direct from the originator, which will assure you of getting the genuine Mastadon, and every plant sold carries with it our absolute guarantee of satisfaction.

Mastadon Is A Money-Maker Wherever Grown

Every back yard garden and market gardener should have them. On ordinary springy garden soil one thousand Mastadon plants will yield 1000 quarts during the summer and fall, and will also produce 1500 quarts the following spring, of the finest quality fruit; making 2500 quarts in 14 months after planting. The one thousand quarts picked during the summer and fall will readily sell for \$400, and the 1500 quarts in the spring is good for \$200, making a total of \$600 for a \$40 investment. The above is very conservative as we have had much better reports.

We realized at our own nurseries the past summer \$18.00 per 60-pint crate for every crate we sold.

Krueger
Runner Cutter
FREE!

We advise growing the Mastadon in the hill system, and with each order for 1000 plants at list price we will send you one Krueger Runner Cutter, worth \$8.00---FREE, to make the work easy for you. This tool will add \$100.00 in profits to any acre of berries.

Plant Townsend's Vigorous New-Ground Mastadon Plants - Every Plant A Producing Plant!

The above illustration is a bundle of Mastadon plants taken from our beds. Notice the well developed crown and fibrous roots. Plants with quality like these will produce the bumper crop of big red delicious fruit that will command the highest prices on any market.

Let us book your order now for a few thousand of this wonderful variety, so that you may be in the money-making class this summer.

The Greatest Early Berry on The Market

PREMIER

(Howard 17)

No Other Standard Variety Will Make As Much Money For The Strawberry Grower

Premier has taken first place with the most successful strawberry growers throughout the country. The demand for this variety is far greater than any other variety on the market. This demand is steadily increasing as new growers find the good qualities of this berry.

Premier Fruit Is Perfect

We have never yet had a report from our customers stating that they ever lost their crop by late frosts or freezing. Not only a frost proof variety but one of the greatest drouth resisters owing to their large and extra long roots. If there is any moisture within a foot of the top soil they will surely get it. Other varieties will dry up from drouth when Premier planted beside them will show little or no effect.

Heavy Producers

As a long distant shipper it has no equal. Not only does it carry well but commands the very top market prices. Its uniform size and color always attracts the attention of the very best trade. On this page you will notice a Premier berry taken from actual photograph; note the cap which stands out prominent; this is a dark green and never shows any sign of rust or wilting after picking. The Premier is an extra early fancy berry, one that every grower should plant.

If your land is not netting you \$500.00 per acre, then plant it to Premier. Everyone who has grown the Premier has given it the name of being the heaviest producer of high quality berries that they have ever grown. Our files show that it is an every day occurrence to make from \$1,000 to \$1200 per acre clear. One of our customers who was at our nurserier this summer stated that from one acre he sold over \$1650.00 worth of berries. Another customer writes: If your land is not producing anything but taxes to plant it in Premier and you will make the best investment you ever made.

Set Our Quality New-Ground Plants

Townsend's plants are grown on light new ground soil, producing an abundance of fiberous roots and making a heavy fruit crown. It certainly will not pay to set small runted plants as this quality plant will tell when picking time comes. One acre set with Townsend's New Ground Plants are worth several acres set with low vitality stock.

Largest Growers of Premier Plants In The Country

For the past eight years we have made a specialty of growing this variety, and have grown and sold probably more of this variety than any other concern in the country. The demand on us for these plants is so enormous that it seems impossible for us to grow enough of them. Our stock this year runs into several million, and we have never had finer quality plants to offer you than we have this year.

WE WANT YOUR ORDER!

We Will Start
You Right

MANY thousand inquiries are being received for the first time for our Big Money-Saving Catalogue, which are being mailed as fast as the inquiries come in, and we hope that you have all received your copy. We know that many of you have - because you have already sent in your order, and it is now on our books awaiting shipping date or it has gone forward according to your instructions. But thousands of you who have asked for the book, for some reason or no reason, have not sent in any order yet. I know that you were interested or you would not have asked for the Free Book, and this is the reason I am coming back at you with this the greatest of all offers I have ever made since I have been issuing a catalogue of plants. If it is possible I want at least a small order from everyone who has received my catalogue this year.

We Offer You A Special Inducement!

These Well-Known
Varieties

Every Garden On This Page Delivered To
Your Door Prepaid At These Low Prices.

AT COST!

If I can induce 10,000 of you who have never ordered plants from me before to send me an order this Spring it will mean at least 50,000 new orders in 1928. My prices are already much lower than you can buy good plants any where else, but I am going to make some *special bargains* on this page that you cannot afford to turn down even though you have plenty good varieties of your own.

Let's Resolve To Grow Our Own Strawberries!

If we should happen to meet each other face to face and I offered to give you just all the strawberries that you and your family could eat (no matter how large your family was) for two or three dollars, and that all that you had to do was to unwrap a package and put the plants in the ground, and when you get up of a morning (when you had a feeling in your stomach that would make you think: "Oh, what's the use of eating"), then to go out and work a little around these growing plants, so that when you came in to breakfast the stack of hot cakes would look like a pile of dimes on the plate - you would not let me get away before you had contracted for two or three gardens. This is just what we are offering you, no strings attached to this; there is only a 2c postage stamp between us. Drop us a letter for any one of these gardens. We will do the rest in living up to the contract.

There is absolutely no profit to us in any of the above gardens, and our only object is to introduce our high-grade plants so that you will become regular customers and tell your friends how much you have enjoyed these Townsend Strawberry Gardens. If any of the Gardens are too small just double the amount of remittance and we will send two gardens instead of one.

Grow Townsends' Plants The Townsend Way - And You Will Never Complain About Your Strawberry Crop.
